

FRIDGE/UNITAR

**Study into the Implications of Implementing
the Globally Harmonised System of Classification
and Labelling of Chemicals and Development of an
Implementation Strategy for South Africa**

Part 4

Gap Analysis and Socio-Economic Implications

December 2003

FRIDGE / UNITAR

Study into the Implications of Implementing the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and Development of an Implementation Strategy for South Africa

The project was funded by Fund for Research into Development, Growth and Equity (FRIDGE) and co-funded and technically supported by the United Nations Institute for Training and Research (UNITAR), with financial resources made available by the Government of The Netherlands.

This report forms part of a series of reports, which are the outcomes of the GHS Project:

1. **Part 1:** Study into the Implications of Implementing the Globally Harmonised System of Classification and Labelling of Chemicals and Development of an Implementation Strategy for South Africa: ***Situation Analysis***, FRIDGE / UNITAR, Johannesburg, December 2003
2. **Part 2:** Study into the Implications of Implementing the Globally Harmonised System of Classification and Labelling of Chemicals and Development of an Implementation Strategy for South Africa: ***Chemical Hazard Communication Comprehensibility Testing - Tool and Toolkit***, FRIDGE/UNITAR, Johannesburg, December 2003
3. **Part 3:** Study into the Implications of Implementing the Globally Harmonised System of Classification and Labelling of Chemicals and Development of an Implementation Strategy for South Africa: ***Chemical Hazard Communication Comprehensibility Testing - Study Report***, FRIDGE/UNITAR, Johannesburg, December 2003
4. **Part 4:** Study into the Implications of Implementing the Globally Harmonised System of Classification and Labelling of Chemicals and Development of an Implementation Strategy for South Africa: ***Gap Analysis and Socio-economic Implications***, FRIDGE/UNITAR, Johannesburg, December 2003
5. **Part 5:** Study into the Implications of Implementing the Globally Harmonised System of Classification and Labelling of Chemicals and Development of an Implementation Strategy for South Africa: ***National Implementation Strategy***, FRIDGE/UNITAR, Johannesburg, December 2003
