

5. THE WAY FORWARD

This gap analysis and socio-economic evaluation forms the basis for the next phase of the study, Phase 3, i.e. the Development and Implementation of a National GHS Implementation Strategy.

The process forward will be as follows. The draft Gap Analysis and Socio-Economic Implications report (this report) will be revised and updated to the final Gap Analysis and Socio-Economic Implications Report based on comments and input received at the workshop. The outcome of this study will then form the basis for the development and implementation of a National GHS Implementation Strategy, which will be the third and final phase of this GHS study.
